

MSc in Data Analytics

Mahara Project e-Portfolio

This exercise is aimed to use Mahara to record weekly project progress. Each student should have a mahara collection or portfolio named "Project" which includes the following **two pages**:

1. **Introduction** - Title and project background
2. **Project Progress** - which includes details of each meeting between student and supervisor as stated below:
 - a) Date of Meeting
 - b) Progress: Review of deliverables and work completed since last meeting
 - c) Discussion: Discuss progress, research, development and analysis
 - d) Deliverables: list of agreed deliverables for next week
 - e) Date of next meeting

How to create a Mahara e-portfolio or collection?

1. Log in to Moodle and click the Home – DkIT Mahara link on the right side of the homepage.
2. Create each of the **two pages** described above using the Create link and the Create page.
3. Create a collection titled '**MSc in Data Analytics project**'. In the Portfolio dropdown menu, select Collections. Select 'New collection'.
4. Add the two pages to the collection.
5. Use a secret link to share your project. In the Portfolio dropdown menu, select 'Shared by me', then click the globe icon under secret URLs, and New secret URL.
6. Upload this link to your Mahara e-portfolio through Moodle.
